Highlights of the meeting include:

Dialogue with the leadership of the International Standard Setters

As part of the audit regulators' ongoing dialogue with the standard setters, the members of the CEAOB Inspections Sub-Group and the CEAOB International Auditing Standards Sub-Group met with the leadership of the International Auditing and Assurance Standards Board (IAASB) and the International Ethics Standards Board for Accountants (IESBA) to discuss their standard setting activities and the potential for changes to standards in reducing the level of audit quality related findings by inspectors.

Dialogue with the leadership of PwC

As part of the audit regulators' ongoing dialogue on improvements in audit quality with large European audit networks, the ISG members met with representatives of PricewaterhouseCoopers to discuss the firms' plans to improve the quality of their audits.

Based on analysis of the database, the ISG members discussed the nature of findings related to the audit of inventory and disclosures, being among the most common inspection findings, as well as potential causal factors for these findings.

Presentation of detailed inspection approach

The ISG continued a series of presentations by individual regulators of their inspection approach. Finanstilsynet presented the approach adopted in Norway.

Other areas covered during the meeting

ISG members shared experience on a number of other topics, including inspections reporting and grading systems, the cooperation with the participants of the ESMA European Enforcers Coordinated Sessions and the preparation for the next Market Monitoring report.
