CEAOB Enforcement Sub-group Work Plan 2023 and Outlook 2024

1. Introduction

In order to further trust in informative, reliable, and independent audit reports, the CEAOB fosters the improvement of audit quality in Europe. To fulfil this mission, the Enforcement sub-group supports the development of expertise of its members, and it fosters sharing of experience, expertise and best practices in the area of investigations and sanctions. In order to inform interested parties, including EU policy makers, international standard-setters, academics, company directors, public authorities, and the general public, the Enforcement sub-group publishes an annual Enforcement Report which covers statistics on administrative measures and sanctions through the EU and useful information on the functioning of Member States enforcement bodies and their practices.

This work plan sets out the key priorities and activities for the period until the end of 2023.

2. Objectives

Through its ongoing work, the sub-group facilitates in particular the aims of the following pillar objectives of the CEAOB:

1. **Sharing expertise and experience:** The Enforcement sub-group focuses on actual topics in the audit market. It interacts and cooperates with other CEAOB sub-groups in order to share and analyze information on regulation and auditor oversight.
2. **Contributing to EU policy on statutory audit and other assurance:** The Sub-group provides input through its activities and the information collected. The annual CEAOB Enforcement Report covers statistics of administrative measures and sanctions through the EU and useful information on the functioning of enforcement bodies and on their practices. The Enforcement Report is targeted to CEAOB members, authorities and to the general public.
