## NATIONAL IMPLEMENTING MEASURES

<b>List of the national implementing measures notified to the European Commission</b>	<b>General observations</b>
<p><b>Laki maksulaitoslain muuttamisesta (2011/899)</b>            Amending Act No 2011/899 on Payment Institutions            (hereinafter referred to as the ‘API’)</p>	<p>Amending Act No 2011/899 on Payment Institutions modifies the Act on Payment Institutions (‘API’) in order to adapt it for the purpose of the transposition of this Directive into Finnish national legislation.</p> <p>Whereas the API provides in the first place on Payment Institutions, the scope of the API has been widened to include electronic money institutions. Consequently, whereas the API provides principally on Payment Institutions, its provisions apply, by consequence of Amending Act No 2011/899, <i>mutatis mutandis</i>, on electronic money institutions as well.</p> <p>No translation of the API was available on the website finlex.fi; consequently, a translation was provided for this assessment report. The API can however be found in Finnish on: <a href="http://www.finlex.fi/fi/laki/ajantasa/2010/20100297">http://www.finlex.fi/fi/laki/ajantasa/2010/20100297</a></p> <p>Amending Act No 2011/899 entered into force on 22 July 2011, about 3 months after the deadline provided by the Directive (30 April 2011).</p>
<p><b>Laki maksupalveulain muuttamisesta (2011/906)</b>            Amending Act No 2011/906 on Payment Services            (hereinafter referred to as the ‘APS’)</p>	<p>Whereas Amending Act No 2011/906 on Payment Services did not contain any relevant provisions for the compliance assessment of this Directive, it was referred to its basic Act (Act No 2010/290) as regards the transposition of Article 6(1), 1<sup>st</sup> subparagraph, point (a). Specifically, Section 1(2), points 1 to 6 of the APS have transposed the Annex of Directive 2007/64/EC and thus, also Article 6(1), 1<sup>st</sup> subparagraph, point (a) of the Directive.</p> <p>No translation of the APS was available on the website finlex.fi; consequently, a translation was provided for this assessment report. The APS can however be found in Finnish on: <a href="http://www.finlex.fi/fi/laki/ajantasa/2010/20100290">http://www.finlex.fi/fi/laki/ajantasa/2010/20100290</a></p> <p>Amending Act No 2011/906 entered into force on 22 July 2011, about 3 months after the deadline provided by the Directive, on 30 April 2011.</p>

## NATIONAL IMPLEMENTING MEASURES

<p><b>Laki luottolaitostoiminnan muuttamisesta (2011/901)</b>            Amending Act No 2011/901 on Credit Institutions            (hereinafter referred to as the 'ACI')</p>	<p>Whereas Amending Act No 2011/901 on Credit Institutions did not contain any relevant provisions for the compliance assessment of this Directive, it was referred to its basic Act (Act No 2007/121) as regards the transposition of Article 1(1)(a) on the scope of application of this Directive.</p> <p>No translation of the ACI was available on the website finlex.fi; consequently, a translation was provided for this assessment report. The ACI can however be found in Finnish on: <a href="http://www.finlex.fi/fi/laki/ajantasa/2007/20070121">http://www.finlex.fi/fi/laki/ajantasa/2007/20070121</a></p> <p>Amending Act No 2011/901 entered into force on 22 July 2011, about 3 months after the deadline provided by the Directive, on 30 April 2011.</p>
<p><b>Laki ulkomaisen maksulaitoksen toiminnasta Suomessa annetun lain 12 §:n muuttamisesta (2011/900)</b>            Amending Act No 2011/900 of Section 12 on Foreign Payment Institutions in Finland            (hereinafter referred to as the 'AFPIF')</p>	<p>Amending Act No 2011/900 and notably its Section 12 is relevant with regard to this compliance assessment as concerns Article 8 of the Directive which provides that branches of foreign payment institutions shall not receive more favourable treatment than an electronic money institution which has its head office in the EU.</p> <p>This Act is also relevant as regards the transposition of the scope of application of this Directive and its Article 1(1)(a).</p> <p>No translation of the AFPIF was available on the website finlex.fi; consequently, a translation was provided for this assessment report. The AFPIF can however be found in Finnish on: <a href="http://www.finlex.fi/fi/laki/alkup/2010/20100298">http://www.finlex.fi/fi/laki/alkup/2010/20100298</a></p> <p>Amending Act No 2011/900 entered into force on 22 July 2011, about 3 months after the deadline provided by the Directive, on 30 April 2011.</p>
<p><b>Laki finanssivalvonnasta annetun lain muuttamisesta (2011/902)</b>            Amending Act No 2011/902 on the Financial Supervisory Authority            (hereinafter referred to as the 'AFSA')</p>	<p>Amending Act No 2011/902 on the Financial Supervisory Authority is relevant with regard to this compliance assessment as concerns Article 3(3) of the Directive which provides on the acquisition of shares in an electronic money institution.</p> <p>No translation of the AFSA was available on the website finlex.fi; consequently, a translation was provided for this assessment report. ## SUMMARY

### 1. Executive summary

From a general point of view, Finland has transposed the Directive article in a conform manner. The transposition was mainly carried out through existing legislation in the API and therefore it was only completed by Amending Act No 2011/899 on Payment Institutions. However, it was also completed through other specific national implementing measures which transposed specific parts of the Directive, such as the Act on Accounting and the Act on the Financial Supervisory Authority. As the API also transposed the Payment Services Directive (2007/64/EC) the same provisions also transpose part of this Directive on Electronic Money Institutions; these provisions apply unless specifically otherwise provided.

Consequently, as the main amendment to the API was the widening of its scope, as regards the terminology, the API only refers to ‘payment institutions’ and not to specifically to ‘electronic money institutions’. However, this terminological difference does not hamper the proper transposition of this Directive. In general, the API widely follows the structure and the terminology of Directive 2009/110/EC as a result of which it could be concluded that the transposition was done in a conform way, although some issues of partial and non-conformity were retrieved. In some provisions, an almost literal approach can be found whereas the Finnish law also uses occasionally a rather general wording.

The Financial Supervisory Authority (‘FSA’) is the supervisory authority as regards electronic money institutions. The AFSA provides for extensive powers for the purpose of its supervision tasks.

The issuance of electronic money is not considered as a deposit activity which credit institutions are only entitled to pursue. Funds of clients received by electronic money institutions for the issuance of electronic money shall be safeguarded in accordance with the API which follows the Directive provisions where these funds are not forwarded immediately.

### 2. The implementation of Directive 2009/110/EC

#### 2.1. Scope

The Act on Payment Institutions is the main Act which transposes this Directive. Its scope of application has mainly just been widened in order to include electronic money institutions. Therefore, the API applies *mutatis mutandis* to electronic money institutions, unless otherwise provided.

#### 2.2. Terminology

As the Act on Payment Institutions is the main Act which transposes this Directive, the national implementing measures (hereinafter referred to as ‘NIM’s’) refer often to ‘payment institutions’. However, this shall be read as ‘electronic money institutions’ as the API applies as well to electronic money institutions. It should also be observed, that where the Finnish law refers to “osake” or “osuus”, these two words are translated as ‘shares’

#### 2.3. Explanatory note on the assessment

Conformity applies to cases whereby the national provisions follow all requirements of the corresponding provision of Directive 2009/110/EC. Some requirements of the Directive

provision may not be explicitly transposed. National provisions can however be considered as conform as far as the silence does not affect the proper implementation of all requirements and that the missing ones can be inferred.

Partial conformity applies to cases whereby the national provisions do not follow all the requirements of the Directive provision, or are silent about requirements, which are considered minor but necessary. In cases of partial conformity, the interpretation of the national provision does not hamper the proper implementation of the Directive provision as a whole, and, missing requirements cannot be inferred.

Non-conformity applies to cases whereby the Directive provision is not transposed or the national provisions do not follow either, all requirements of the Directive provision, or, the main ones. In cases of non-conformity, the interpretation of the national provisions hamper the proper implementation of the Directive provision as a whole, and missing requirements cannot be inferred either. Also considered are additional requirements and exemptions, which hamper the proper implementation of the Directive provision.

The cases where there are no headings relate to options laid down by the Directive provision that Member States has not chosen to apply, or, to obligations resting upon the European Commission.

## 2.4. Legal analysis

### 2.4.1. Title I – Scope and definitions

Overall, the transposition of Title I in the national legal order has been realised in a conform manner despite the different wording employed. Whereas the transposition of provisions relating to definitions has been unproblematic, a case of non-conformity has arisen with regard to the scope of application.

#### 2.4.1.1. Article 1 – Subject matter and scope

Finland has in a general manner correctly transposed the scope of application of the Directive. Consequently, credit institutions, electronic money institutions and the Finnish Central Bank are recognised as electronic money issuers. However, it should be noted that post office giro institutions do not operate in Finland anymore. Moreover, public authorities are not considered as electronic money issuers and thus Article 1(1)(e) of the Directive has not been transposed in a conforming manner.

As regards Article 1(1)(c) and post office giro institutions, such institutions do not operate in Finland anymore.

As regards Article 1(3), Finland has waived the application the provisions of Title II of this Directive to the institutions referred to in Article 2 of Directive 2006/48/EC; Finland has transposed the option through Section 2(1), point 6 of the API and thus excluded the institutions referred to in Article 2 of Directive 2006/48/EC, 18<sup>th</sup> indent ('Teollisen yhteistyön rahasto Oy/Fonden för industriellt samarbete AB', and 'Finnvera Oyj/Finnvera Abp') from the scope of application of the API.

#### 2.4.1.2. Article 2 – Definitions

Finland has transposed all the Directive definitions. However, the Finnish law includes 'natural persons' in the definition of 'electronic money institutions'. The definitions of 'electronic money' and '- issuer' have been directly transposed in a conforming manner. However, the definition on 'average outstanding money has been indirectly transposed in the API.

### 2.4.2. Title II – Requirements for the taking up, pursuit and prudential supervision of the business of electronic money institutions

In principle, the provisions of Title II have been properly transposed. A certain number of issues of conformity have been encountered regarding the provisions on general prudential rules, safeguarding requirements, relations with third countries and optional exemptions. In terms of the wording employed, the transposition has been at most times almost literal or of an equivalent vocabulary.

#### 2.4.2.1. Article 3 – General prudential rules

Finland has transposed the Directive provisions as regards the 'General prudential rules' from a general point of view in a conform manner. Moreover, as regards the requirements as

the change of activity or the acquisition or disposal of shares in an electronic money institution (Article 3(3) and (4)), these have been transposed almost literally or without any material discrepancies. However, article 3(3), second paragraph is considered to partially comply with the Directive article as the content of the acquirer's notification obligation is not established. It may be noted that the FSA is the competent supervisory authority to which the notification shall be made.

Article 3(4) of the Directive has been transposed in a conforming manner although the wording differs; thus a Finnish electronic money institution is allowed to 'redeem and distribute' electronic through a natural- or legal person who acts on its behalf.

As regards Article 3(5), it appears that an agent would be allowed to issue partially electronic money; thus partial conformity is observed.

#### 2.4.2.2. Article 4 – Initial capital

Finland has transposed the capital requirements with regard to electronic money institutions in a conform manner; the initial own funds shall be at least 350 000 EUR.

#### 2.4.2.3. Article 5 – Own funds

Finland has transposed the requirements on the electronic money institutions own funds in a conform manner. However, as regards Article 5(5), it provides that the own funds requirement may be lowered or increased for a maximum length of 3 years whereas the Directive does not contain such a limitation. Conformity has still been observed.

As regards Article 5(4), where the Directive provides that electronic money institutions shall be allowed to calculate its own funds requirements on the basis of a representative portion, the Finnish law provides for a justification different from the Directive: unreasonable costs.

#### 2.4.2.4. Article 6 – Activities

Finland has transposed the Directive provisions as regards the activities of an electronic money institution in a conforming manner. An electronic money institution may provide all the payment services listed in Article 6(1). It may not take deposits (Article 6(2)) and the funds received shall be exchange to electronic money without delay (Article 6(3)) whereas they may not be used for the provision of credit (Article 6(1), second subparagraph).

#### 2.4.2.5. Article 7 – Safeguarding requirements

Finland has transposed the Directive provisions on the safeguarding requirements generally in a conform manner. However, with regard to Article 7(2), 1<sup>st</sup> subparagraph, as the FSA shall provide on when securities or other investment items may be considered as low-risk or liquid and whereas it appears that it has not, the transposition of this Directive provision is incomplete; consequently, the Finnish law does not contain either a reference to an undertaking for collective investment in transferable securities (UCITS), referred to in the second subparagraph of the said Directive article and which units shall be considered low-risk assets.

#### 2.4.2.6. Article 8 – Relations with third countries

Finland has transposed the Directive article on the relations with third countries generally in a conform manner. Electronic money institutions having their head office outside the Community do not enjoy more favourable treatment than electronic money institutions having their head office within the Community; no provision which would be more favourable for foreign electronic money institutions were retrieved in the Finnish legislation (Article 8(1)). However, as regards the notification obligation of the competent authority (Article 8(2)), the Finnish law does not contain such explicit provisions. Finally, as regards the possibility of the EU to conclude agreements with third countries (Article. 8(3)), it appears that this part of the Directive article did not require any transposing measure from the Member States.

#### 2.4.2.7. Article 9 – Optional exemptions

As regards Article 9(1) of the Directive, Finland has transposed the option and waived the application of certain procedures and conditions as regards the issuance of electronic money for certain natural- and legal persons. It may also be noted that Finland has transposed the other requirements under Article 9 of the Directive as regards an electronic money institution which is allowed to issue electronic money without applying all the conditions and procedures in this Directive. An electronic money institution pursuant to this Directive article shall also have its head office in the Member State in which it actually pursues its business, be treated as an 'electronic money institution' and may not establish a secondary establishment or issue electronic money in another Member State of the EEA (Article 9(2) and (3)). Finland has not limited the activities of an electronic money institution pursuant to this Directive article (Article 9(4)). However, the notification and reporting obligations under Article 9(5) of the Directive have been correctly transposed. As regards Article 9(7), the FSA has large supervisory powers for the purpose of its supervision of electronic money institutions. Concerning Article 9(8), the APCMLTF applies on electronic money

institutions. However, as regards the notification obligation to the European Commission, the Finnish law does not contain such an explicit provision and thus partial conformity is observed.

#### 2.4.3. *Title III – Issuance and redeemability of electronic money*

Only one case of partial conformity has been observed within Title III relating to the out-of-court complaint and redress procedures for the settlement of disputes. For the rest of the provisions, transposition has been realised in a conform manner and the wording employed has been either literal or, in the majority of cases, of an equivalent content.

##### 2.4.3.1. Article 10 – Prohibition from issuing electronic money

Finland has correctly transposed Article 10 on the ‘Prohibition from issuing electronic money’; only electronic money institutions may issue electronic money;

##### 2.4.3.2. Article 11 – Issuance and redeemability

Finland has correctly transposed Article 11 on ‘Issuance and redeemability’ of the electronic money; electronic money shall be issued at par value and it shall also be possible to redeem the money at any moment (Article 11(1) and (2)). The terms and conditions for redemption shall also be communicated to the electronic money holder as required by Article 11(3) whereas Article 11(4) on the applicable fees has been transposed almost literally. Redemption may also be asked in whole or in part (Article 11(5)). Finland has also correctly transposed Article 11(6) of the Directive and the conditions linked to the redemption up to one year after the termination of the contract. Freedom of contract applies for non-consumers (Article 11(7)).

##### 2.4.3.3. Article 12 – Prohibition of interests

Finland has correctly transposed Article 12 on the ‘Prohibition of interest’; it is prohibited to provide interest for the funds received.

##### 2.4.3.4. Article 13 – Out-of-court complaint and redress procedures for the settlement of disputes

Finland has not provided explicitly for ‘Out-of-court complaint and redress procedures for the settlement of disputes’ in the API. Whereas the Finnish law has in general correctly transposed the provisions on the ‘out-of-court and redress procedures’ provided for under Chapter 5 of TITLE IV of Directive 2007/64/EC, Article 80 of the said Directive has not been transposed.

#### 2.4.4. *Title IV – Final provisions and implementing measures*

In this Title, conformity is challenged with regard to the transitional provisions whereas the wording employed is of an equivalent content.

##### 2.4.4.1. Article 16 – Full harmonization

It appears that Article 16 did not require an explicit transposition into national legislation.

##### 2.4.4.2. Article 18 – Transitional provisions

Finland has provided for similar transitional provisions as the Directive; however, as regards Article 18(1), 2<sup>nd</sup> subparagraph, it has provided for a transitional period which is 12 months longer than in the Directive article. As regards Article 18(3), the corresponding transitional period is 18 months longer.

### 3. Conclusions on conformity

#### 3.1. Cases of partial conformity

**Article 2(1)** – This Directive article regarding the definition of ‘electronic money institutions’ is partially transposed as the Finnish law includes natural persons in the definition of

‘electronic money institutions’ whereas the Directive only refers to ‘legal persons’;

**Article 3(3), second subparagraph** – This Directive article regarding the ‘general prudential rules’ is partially transposed; a Government Decree should provide for the information that shall be provided in relation to an acquisition of a holding in an electronic money institution; however, no Decree has been enacted;

**Article 3(5)** – This Directive article regarding the ‘general prudential rules’ is partially transposed as an agent would be allowed to issue electronic money contrary to the Directive provision;

**Article 7(2), first subparagraph** – This Directive article regarding the ‘safeguarding requirements’ is partially transposed as the Finnish law has not provided for a list of ‘low-risk’ and ‘liquid’ assets;

**Article 9(1), first subparagraph:** This Directive article regarding the ‘optional exemptions’ is partially transposed as the Finnish law also considers ‘natural persons’ as electronic money institutions as the Directive only considers ‘legal persons’ as electronic money institutions;

**Article 9(9)** – This Directive article regarding the ‘optional exemptions’ is partially transposed; The Finnish law does not contain provisions according to which Finland or the FSA shall notify the Commission whereas Finland has availed itself of the waiver provided for in Article 9(1) of the Directive;

**Article 13** – This Directive article regarding the ‘out-of-court redress and complaint procedures’ is partially transposed; no corresponding provisions to Article 80 under Chapter 5 of Title IV of Directive 2007/64/EC were retrieved;

**Article 18(1), second subparagraph** – This Directive article regarding the ‘transitional provisions’ is partially transposed as the Finnish law has provided for a transitional period which is 12 months longer than provided for in the Directive article;

**Article 18(3)** – This Directive article regarding the ‘transitional provisions’ is partially transposed as the Finnish law has provided for a transitional period which is 18 months longer than provided for in the Directive article;

### **3.2. Cases of non-conformity**

**Article 1(1)(e)** – This Directive article regarding the ‘subject matter and scope’ is not transposed as the Finnish law does not recognise public authorities as issuers of electronic money, when acting in their capacity as public authorities;

**Article 7(2), second subparagraph:** This Directive article regarding the ‘safeguarding requirements’ is not transposed as the Finnish law does not contain a provision according to which units in UCITS which invests solely in assets as specified in the first subparagraph of Article 7(2) shall also be considered as ‘secure, low-risk assets’;

**Article 8(2)** – This Directive article regarding the ‘relations with third countries’ is not transposed as the Finnish law does not contain a provision according to which the Commission shall be notified of all authorisations for branches of electronic money institutions having their head office outside the Community;

### **3.3. Option (‘May’ clause)**

#### *3.3.1. Finland has chosen to transpose the following options into its national legislation:*

**Article 1(3) of the Directive** – Finland has applied the option and thus excluded ‘Teollisen yhteistyön rahasto Oy/Fonden för industriellt samarbete AB’, and ‘Finnvera Oyj/Finnvera Abp’ from the scope of application of the API.

**Article 5(5):** Finland has applied the option and thus the FSA may require that a higher amount of own funds be held or allow that a lower amount of own funds be held;

**Article 5(7):** Finland has applied the option as regards the application of the consolidated supervision with regard to the own funds requirement;

**Article 7(1):** Finland has transposed the Directive option under Article 9(2) of the PSD Directive which provides that ‘where a portion is variable or unknown in advance, Member States may allow payment institutions to apply this paragraph on the basis of a representative portion [...] reasonably estimated on the basis of historical data to the satisfaction of the competent authorities’;

**Article 7(3):** Finland has applied this option and consequently provided for alternative ways to safeguard the funds received for activities not linked to the issuance of electronic money;

**Article 7(4):** Finland has applied this option and provided for specific methods which shall safeguard the funds;

**Article 9(1) 1<sup>st</sup> subparagraph:** Finland has applied the option and thus, both natural- and legal persons may issue electronic money without applying all procedures and conditions set out in the Directive article. However, as the Directive does not refer to ‘natural persons’, partial conformity is observed;

**Article 18(2):** Finland has applied this option and thus allows electronic money institutions which already comply with the regulatory requirements to be automatically entered into the register of electronic money institutions

### 3.3.2. *Finland has chosen not to transpose the following options into its national legislation:*

**Article 3(3) sixth subparagraph** – Finland does not seem to have applied this option and waived the application of all or part of the obligations with respect to electronic money institutions which carry out several activities;

**Article 7(2), third subparagraph:** Finland has not transposed the option with regard to own funds in ‘exceptional circumstances’. However, it seems that it would be up to the FSA to provide for measures in this situation; however, no measures could be retrieved;

**Article 9(1) third subparagraph:** Finland has not applied this option and thus not provided for a limitation on the amount of electronic money that may be stored on a payment instrument or a payment account;

**Article 9(4):** Finland has not applied this option and limited the activities that could be operated by an electronic money institution.

<b>Art. 2 intr. wordi ng</b>	<b>Article 2 Definitions</b> For the purposes of this Directive, the following definitions shall apply:	<b>2 artikla Määritelmät</b> Tässä direktiivissä tarkoitetaan:	<b>API, S. 5</b>	<b>API, S. 5 Definitions</b> For the purpose of this Act:	<b>API, 5 § Määritelmät</b> Tässä laissa tarkoitetaan:	<b>CONFORM</b> Section 5 of the API transposes the introductory wording of Article 2 of the Directive.
<b>Art. 2 pt (1)</b>	1. "electronic money institution" means a legal person that has been granted authorisation under Title II to issue electronic money;	1) "sähköisen rahan liikkeeseenlaskijalaitoksella" oikeushenkilöä, jolle on myönnetty II osaston nojalla sähköisen rahan liikkeeseen laskemiseen oikeuttava toimilupa;	<b>API, S. 5, point 2(b)</b> <b>API, S. 6(1)</b>	<b>API, S. 5, point 2(b)</b> 2b) 'electronic money issuer' means an electronic money institution or other natural- or legal person which issues electronic money; ( <a href="#">22.7.2011/899</a> )  <b>API, S. 6(1)</b> <b>Authorisation requirement to provide payment services</b> Payment services may only be provided where an authorisation has been issued according to this Act. The authorisation of an electronic money institution shall specifically show the right to issue electronic money. ( <a href="#">22.7.2011/899</a> )	<b>API, 5 §, 2 b) kohta</b> 2 b) sähköisen rahan liikkeeseenlaskijalla sähkörahayhteisö ja muuta luonnollista tai oikeushenkilöä, joka laskee liikkeeseen sähköistä rahaa; ( <a href="#">22.7.2011/899</a> )  <b>API, 6 § 1 mom.</b> <b>Maksupalvelun tarjoamisen luvanvaraisuus</b> Maksupalvelua saa tarjota vain, jos toimintaan on saatu tässä laissa tarkoitettu toimilupa. Sähkörahayhteisön toimiluvasta on erikseen käytävä ilmi oikeus laskea liikkeeseen sähköistä rahaa. ( <a href="#">22.7.2011/899</a> )	<b>PARTIALLY CONFORM</b> Section 5, point 2(b) of the API transposes Article 2, point 1 of the Directive. Whereas the Directive provision only refers to ' <i>legal persons</i> that have been granted authorisation [...] to issue electronic money', the Finnish law also refers to ' <i>natural persons</i> '. According to Section 6(1) of the API, an electronic money institution receives a specific authorisation before it may issue electronic money. Therefore, an electronic money institution shall comply with all authorisation requirements, which follows the second part of the Directive article. According to the provisions in Recital 25 of this Directive, it may be noted that electronic money institutions shall no longer be considered as credit institutions. Act No 2011/901 Amending the Act Credit Institutions deleted the reference to 'issuance of electronic money' in Section 4 of Act No 2007/121 on Credit Institutions which

Directive 2009/110/EC		National Implementing Measures			Conformity Assessment	
					<p>provides for the definition of ‘activity of credit institutions’; therefore, electronic money institutions shall not be considered as credit institutions anymore.</p> <p>Where Section 2 of the API simply provides that notably a public limited company may constitute a payment institution where it complies with the authorisation requirements in the API, this implies that a credit institution, which may be a public limited company, shall also be able to ‘issue electronic money’.</p> <p>Conclusively, and considering the above, it is considered that the Finnish law partially complies with the Directive requirements.</p>	
<b>Art. 2 pt (2)</b>	2. "electronic money" means electronically, including magnetically, stored monetary value as represented by a claim on the issuer which is issued on receipt of funds for the purpose of making payment transactions as defined in point 5 of Article 4 of Directive 2007/64/EC, and which is accepted by a natural or legal person other than the electronic money issuer;	2) "sähköisellä rahalla" sähköisesti tai magneettisesti tallennettua rahallista arvoa, joka ilmenee liikkeeseenlaskijaan kohdistuvana saatavana, joka on laskettu liikkeeseen vastaanotettuja varoja vastaan direktiivin 2007/64/EY 4 artiklan 5 kohdassa määriteltyjä maksutapahtumia varten ja jonka muu luonnollinen henkilö tai oikeushenkilö kuin sähköisen rahan liikkeeseenlaskija itse ottaa vastaan;	<b>API, S. 5, point 6a)</b>	<p><b>API, S. 5, point 6a)</b></p> <p>6a) <i>electronic money</i> means an amount of money which has been electronically or magnetically stored against a payment made to an issuer of electronic money and which one or several businesses have committed to accept as payment; (<a href="#">22.7.2011/899</a>)</p> <p><b>API, S. 5, point 5)</b></p> <p>5) <i>payment transaction</i> means an operation where funds are transferred, withdrawn or made</p>	<p><b>API, 5 §, 6 a kohta</b></p> <p>6 a) <i>sähköisellä rahalla</i> raha-arvoa, joka on tallennettu sähköisesti tai magneettisesti sähköisen rahan liikkeeseenlaskijalle suoritettua rahamäärää vastaan maksutapahtumien tekemistä varten ja jonka yksi tai useampi yritys on sitoutunut hyväksymään maksaksi; (<a href="#">22.7.2011/899</a>)</p> <p><b>API, 5 §, 5 kohta</b></p> <p>5) <i>maksutapahtumalla</i> toimenpidettä, jolla varoja siirretään, nostetaan tai asetetaan käytettäväksi;</p>	<p><b>CONFORM</b></p> <p>Section 5, point 6a of the API transposes Article 2 point 2 of the Directive.</p> <p>Whereas the wording is comparable, the Finnish law has transposed the Directive definition in a streamlined manner.</p> <p>Notably, it only refers to ‘undertakings’ that have committed to accept electronic money as payment, whereas the Directive refers to ‘natural or legal person[s]’.</p> <p>Whereas the Finnish law does neither refer to specific payment transactions where electronic money may be used according to point 5 of Article 4 of Directive 2007/64/EC, it seems that this may be implied in a general manner.</p> <p>Moreover, a ‘payment transaction’ is defined</p>

<b>Art. 2 pt (3)</b>	3. The said Directive article has been transposed in a streamlined manner as the Finnish law does not refer specifically to any entities in comparison to the Directive article. However, as the API has also transposed

The same applies as regards the institutions benefiting from the waiver under Article 1(3) of this Directive.	
<b>Art. 2 pt (4)</b>	4. Where the Directive article provides that 'electronic money institutions shall not issue electronic money through agents', the Finnish law provides that the issuance of electronic money may not 'entirely' be done through an agent.  Therefore, there seems to be a doubt if an agent would be allowed to issue electronic money 'partially' for the account of the electronic money institution. Whereas the Directive refers to its Article 6(1) (a) to (e) in order to justify the calculation of the own funds ‘on the basis of a representative portion’ of outstanding electronic money, the Finnish law does not contain such a reference; on the contrary, it refers to a more general situation where an electronic money institution would not be able calculate the own funds ‘without unreasonable costs’.  In this case, in accordance with the Directive article, the FSA may authorize the calculation of the own funds on the basis of prudent historical data; moreover, the FSA shall provide the authorisation where the outstanding electronic money can be estimated continuously in a reliable manner.  Also, with regard to the last part of the Directive article (‘where an electronic money institution has not completed a sufficient period of business’) the Finnish law provides that where 12 months have not lapsed since the authorisation, the outstanding electronic money may be estimated according to the calculation made in the business plan submitted for approval to the FSA during the authorisation procedure.  Consequently, although the Finnish law

Therefore, the Finnish law is considered to comply with the Directive article.

Although the structure of the sentences and the wording differs to some extent the Finnish law has transposed the option in a comparable manner.  However, the Finnish law specifies that the FSA may require that the own funds shall be lower or higher, ‘when necessary’, for a maximum length of 3 years whereas the Directive article does not contain an equivalent time limit.  Therefore, whereas the Directive article does not contain an equivalent time limit, this time limit ensures that an electronic money institution takes the necessary measures in order to comply with its (capital)

Where the Directive provides that the own funds requirements in Article 5(2) and (3) may not be applied where the conditions laid down in Article 69 of Directive 2006/48/EC are met, the Finnish law refers in an equivalent manner to Section 56 of the ACI.  In fact, Section 56 of the ACI contains the provisions corresponding to Article 69(1) of Directive 2006/48/EC; it does not transpose paragraphs 2 to 4 of the said Article. In accordance with the Directive provision, an electronic money institution shall ‘without delay’ inform the FSA notably about any ‘significant changes in the extent of its activity’ or with regard to Section 7(2) to (4) of the API or Section 7a(1) of the API.  Whereas Section 7(2) and (3) of the API do not appear relevant as regards electronic money institutions (it refers to the average amount of payment transactions that may be carried out during the past 12 months by a payment institution and to the transactions carried out by an agent), Section 7(4) of the API refers to the ‘reliability’ of any person participating in the payment operations and Section 7a(1) refers to the amount that an electronic money institution may issue without authorisation (5 000 000 EUR).  The above notification obligations seem to compare with the obligations set out in Article 9(1) of the Directive.  Consequently, it appears that the Finnish law complies with the notification obligation provided for in the Directive article.

Art. 18(3)	3. Member States shall allow electronic money institutions that have taken up, before 30 April 2011, activities in accordance with national law transposing Article 8 of Directive 2000/46/EC, to continue those activities within the Member State concerned in accordance with Directive 2000/46/EC until 30 April 2012, without being required to seek authorisation under Article 3 of this Directive or to comply with the other provisions laid down or referred to in Title II of this Directive. Electronic money institutions which, during that period, have been neither authorised nor waived within the meaning of Article 9 of this Directive, shall be prohibited from issuing electronic money.	3. Jäsenvaltioiden on sallittava sähköisen rahan liikellelaskijoiden, jotka ovat ennen 30 päivää huhtikuuta 2011 aloittaneet toimintansa direktiivin 2000/46/EY 8 artiklan täytäntöön panemiseksi annetun kansallisen lainsäädännön mukaisesti, jatkaa direktiivin 2000/46/EY mukaista toimintaa asianomaisessa jäsenvaltiossa 30 päivään huhtikuuta 2012 saakka ilman, että niiden on haettava tämän direktiivin 3 artiklan mukaista toimilupaa, tai että niitä vaaditaan noudattamaan muita tämän direktiivin II osastossa säädetyjä tai siinä tarkoitettuja säännöksiä. Sähköisen rahan liikkeeseenlaskijalaitoksia, joille ei annettuna aikana ole myönnetty toimilupaa eikä tämän direktiivin 9 artiklan mukaista poikkeusta, on kiellettävä laskemasta liikkeeseen sähköistä rahaa.	Amending Act No 2011/899	Amending Act No 2011/899 <b>Entry into force of the amended provisions and their application</b>  An undertaking which at the time of entry into force of this Act operates a business where electronic money is issued may until 31 October 2012, notwithstanding this Act issue electronic money by following the provisions in force at the time of entry into force of this Act.	Amending Act No 2011/899 <b>Muutossäädosten voimaantulo ja soveltaminen:</b>  Yritys, joka tämän lain voimaan tullessa harjoittaa liiketoimintaa, jossa lasketaan liikkeeseen sähköistä rahaa, saa 31 lokakuuta 2012 saakka tämän lain estämättä laskea liikkeeseen sähköistä rahaa noudattaen tämän lain voimaan tullessa voimassa olleita säännöksiä.	PARTIALLY CONFORM  The transitional provisions of Amending Act No 2011/899 transpose Article 18(3) of the Directive.  Whereas the Directive article is more detailed than the Finnish law, the Finnish law seems to have transposed the Directive article in a streamlined manner (it does not refer to Article 8 of Directive 2000/46/EC or to Article 9 of this Directive).  Therefore, it appears that it may be considered that the Finnish law refers implicitly to the corresponding provisions of Directive 2000/46/EC, mentioned in the Directive article.  However, according to the Finnish law, an undertaking which would issue electronic money in accordance with the law applicable before the entry into force of Amending Act No 2011/899 would be allowed to pursue its activity until 31 October 2012, that is, 18 months longer than provided for in the Directive article.  Where the last part of the Directive provides that ‘electronic money institutions which [...] have been neither authorized nor waived within the meaning of Article 9 of this Directive, shall be prohibited from issuing electronic money’, it appears that this may be implied in the Finnish law, as any undertaking issuing electronic money shall comply with the provisions in the API on the issuance of electronic money by 31 October 2012; if this would not be the case, the

<b>Directive 2009/110/EC</b>		<b>National Implementing Measures</b>			<b>Conformity Assessment</b>
					<p>activity would naturally be prohibited as not complying with the authorisation requirements.</p> <p>Consequently, and considering the above, the Finnish law seems to comply with the Directive article in general; however, as the set deadline is 18 months longer than the one provided for in the Directive, the Finnish law is considered partially conforming to the Directive provision.</p>
