Indicator 10: Bid-ask spread on corporate bond markets

Liquidity metrics on the EU corporate bond market,
bid-ask spread, 2015-2021

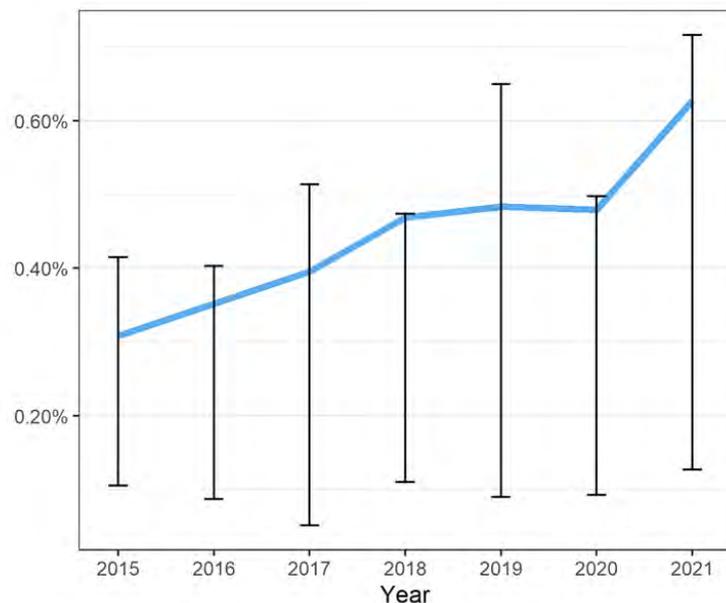

Note: The chart shows the indicator used by ESMA to monitor liquidity on corporate bond markets at annual frequency, constructed as average of monthly observations. It uses the bid-ask spread of the corporate bonds that constitute the iBoxx EUR corporate bond index. A breakdown of the bid-ask spread by the Member States is currently not meaningful because for most Member States there are only few bonds in the underlying index.

Note: The share of SMEs indicating they need of equity minus the share of firms indicating equity is accessible for them. A negative number means availability exceeds needs. The numbers may not be representative of the total economy. Especially the equity gap of BG, CZ, EE, IT, CY, HU, LU, MT, AT, PT, RO and SK is based on a small panel of firms that provided a response.
